Profile

- Frontend Developer with **3.4+ years of experience** in building scalable and high-performance web applications using **React.js**.
- Proficient in **component-based architecture**, **state management** (Redux, Context API), and performance optimization techniques that reduced page load times by 40%.
- Successfully led the migration of legacy systems to modern **React architecture**, enhancing maintainability and scalability. Experienced in **CI/CD pipelines**, **REST API integration**, and cross-browser compatibility testing.
- Built **high-performance applications**, optimizing render cycles and minimizing re-renders.
- Integrated **REST APIs** and worked with backend teams for seamless frontend-backend communication.
- Designed and developed **responsive UIs** with modern CSS frameworks (Tailwind, Material UI).
- Proficient in **debugging and troubleshooting** to optimize performance and user experience.
- Experience in **CI/CD deployments**, ensuring smooth releases via **Vercel and Netlify**.
- Successfully migrated legacy applications to modern **React.js architecture**, improving maintainability and performance.

Employment History

Frontend Developer | ReactJS
BIZGAZE Ltd, Hyderabad

DECEMER 2021 - PRESENT

Projects Undertaken:

Bizgaze Automation (Web Application) | Dec 2021 - Present
Technologies Used: React.jS, JavaScript, Bootstrap, PostgreSQL, MongoDB

Responsibilities:

- Engineered a **mobile-first**, responsive web application using **React.js**, improving accessibility across all devices and reducing bounce rates by 25%.
- Integrated **RESTful APIs** using **Axios**, reducing API response times by 30% through optimized data fetching techniques.
- Identified and resolved over 50+ UI/UX issues, leading to a 20% increase in **user engagement** and application stability.
- Collaborated with product management and external teams using Agile methodologies.
- Built a reusable component library, reducing development time and improving code consistency across projects.

Tools & DevOps:

Git

Webpack

Babel

CI | CD

Vercel

Netlify

Docker

Jenkins

Postman

Backend & Databases

RESTful APIs

PostgreSQL

MongoDB
